The worker honey bees collect nectars from the flowers, processed in their special stomach, called 'honey stomach' and deposit it in honeycomb by regurgitated processed nectar. In ancient times, the honey collectors used to collect honey from wild beehives attached to the rocks, trees or house corners. This practice is still continued today in most of the developing countries including India. The keeping of bees in hives and obtaining honey was started by a bishop in Hartz Mountain of Poland during 11th century. This probably was the first commercial production of honey. However, when Lorenzo Lorraine Langstroth,...

Reviews

An exceptional pdf and the typeface utilized was fascinating to read through. It can be written in straightforward words and phrases instead of confusing. I am just quickly could possibly get a delight of looking at a written ebook.

-- Prof. Arlie Bogan

It is a single of the best book. This is for those who state there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Dr. Barney Robel Jr.
